Private Label Program

At PPC your brand matters to us! With your input we have the ability to label all of our products exactly the way you see fit. We make this process convenient, and cost effective so you receive your product to your location with your brand right on it.

OUR MISSION

PPC, Inc. has grown in great strides in the past few years by implementing best business practices throughout our business and manufacturing processes. We believe PPC has been respecting the concept of sustainability since we started the company in 1989. **PPC strives to continue being a successful business today, tomorrow, and well into the future.** We do this not just for ourselves but for our customers, our suppliers, our employees as well as our community.

We continuously work to enhance our product line and maintain the quality of our products. PPC will not stop investing in improvements to conserve natural resources and reducing our environmental impact and we work with suppliers that do the same. Our comprehensive line of suppliers are among the most environmentally and socially responsible paper manufacturers around the world. PPC's goals are to generate a solid foundation of ethical business decisions and actions for a future world to enjoy.

OUR GROWTH
